

EUROPEAN OAK 4 METRE LONG BOARDS

Vintage was our original 340mm wide oak board colour. However we now have raw stock so you'll be able to choose alternative colours from now on. You won't find many 340mm wide boards out in the market at the moment simply because not many factories are able to make it and stabilise a board at such width. The 340mm wide board is 4 metres long and 22mm thick. It simply looks stunning when you lay it in a big open space. This is the ultimate board. If you're looking for something rare, unique and something out of the ordinary in flooring, then you've found the right company. We've been making this board for 8 years now and many customers are in awe of the size of the board.

European White Oak, flat or wire brushed, raw or finished

Custom Stains
