

ENGINEERED AUSTRALIAN HARDWOOD SPOTTED GUM TIMBER FLOORING WITH WOCA OIL FINISH

Prefinished Australian hardwood flooring manufactured with on Eucalyptus Plywood core for stability and WOCA Denmark UV cured oil finish with medium brushing for hardwearing performance.

SPECIES- Spotted Gum

COLOUR- Browns

WIDTH- 132mm

HEIGHT--- 14mm (Timber wear level 3.5mm)

COMPOSITE- 3.5mm Timber & 10.5mm Ply

LENGTHS: 600mm to 1.8mm

PLY- 10.5mm Eucalyptus Plywood, 8 layers

OIL FINISH- . WOCA UV Cured oil finish with medium brushing

WOCA oils do not contain wax; they are based on vegetable oils and non-aromatic solvents. The oil penetrates into the surface of the wood, and as they cure, harden to form a protective surface that becomes part of the wood floor. Small scratches and indentations caused by normal wear and tear are less noticeable and can be spot repaired.

Species	Visible Gum Vein	Colour Variation	Janka Hardness	Durability	Board Width	Fire Retardant
North Coast Blackbutt	More frequent	Cream to honey brown	9.1	2	80mm to 220mm	Best
Coastal Spotted Gum	Frequent	Light brown to brown	11.0	2	80mm to 210mm	Best
American White Oak	Never	Light brown with pinkish to grey	6.0	3	80mm to 220mm	Poor
