

NASH
TIMBERS

Power pole to timeless luxury?

AN UNUSUAL MARRIAGE TO CREATE TIMELESS MASTERPIECES.

Nash Timbers of Sydney, leaders in recycling timber, are supplying recycled power poles to prestige homes and commercial environments. Each of these poles have a unique identification tag denoting the characteristics of the pole; this then gives the project a Chain of Custody and you get that piece of history to keep, but remodeled to suit your requirements. Blending the old with the new for flooring, decking, cladding, staircase & furniture material and spectacular feature beams.
