COLOUR- Browns, Creams, Reds

WIDTH- 136mm to 186mm

HEIGHT--- 14mm (Timber wear level 0.6mm)

COMPOSITE- 0.6mm Timber & 13.4mm Ply

LENGTHS: 1830mm

PLY- 13.4mm Plantation Eucalypt, 9 layers

LACQUER- .13 Coats incorporating 2 Aluminum Oxide layers

LOCKING SYSTEM - Valinge glueless joining system

This tests the wear resistance of the finishes.

Chinese standards are considered to be 550 revolutions.

The HM walk product minimum test results were 1070 revolutions with a maximum of 3100 revolutions.

Average of 1800 revolutions

Our competitors in Aust species engineered flooring were on average 150 to 250 revolutions.

This shows that HM Walk 13 coat system is far out performing the competitors we have in these products.

ASK ABOUT OUR UNIQUE

Species	Visible Gum Vein	Colour Variation	Janka Hardness	Durability	Board Width	Fire Retardant
North Coast Blackbutt	More frequent	Cream to honey brown	9.1	2	80mm to 220mm	Best
