NASH TIMBERS AUSTRALIAN ROASTED ENGINEERED FLOOR

INTRODUCING A NEW AND UNIQUE DESIGNER FLOOR

**At last an Australian timber mill has produced an
unique Australian Timber Floor.**

Roasted Peat, is an Australian Hardwood that has been through a thermal modification process that uses no chemicals to permanently alter the structure of the wood fibre.

This process greatly increase the stability and density of the hardwood, as well as locking in the gorgeous deep earth to chocolate brown colour tones.

With the deep rich tones of Roasted Peat engineered flooring, it's slightly textured surface and a modern matt oil finish First floors is the perfect choice for homes of distinction.

**AN UNIQUE ENGINEERED FLOOR BOARD
WHY DOES THIS FLOOR DIFFER FROM
OTHER ENGINEERED FLOORS?
THE DARK BROWN COLOUR IS ENTIRELY
THROUGH THE FLOOR BOARD.
IF THE FLOOR BOARD WAS TO BE
SANDED THE COLOUR REMAINS.**
