# All green, all the envy.

Introducing Greentree-flooring. 100% Australian plantation hardwood that not only helps protect the planet, it creates highly sort after aesthetic flooring with a very unique, rustic look and with an abundance of pure natural features that are sure to be all the envy.

On top of looking exquisite it also acts as a Carbon Sink, absorbing 1 tonne of carbon for every cubic meter of growth. It comes in Rose and Blonde and is available now tongue, grooved and end matched. Don't delay, enquire now.
